MONTHLY SUMMARY

The MCCL.ASX returned 10.6% in July (12.7% from equities and -2.1% from currency) while the MSCI ACWI returned 5.4% (7.1% from equities and -1.6% from currency). Equity markets staged a rebound from a very difficult start to the calendar year. For the Fund, many of our 'high-grade' companies reported strong results at their quarterly earnings calls. Coupled with an additional strong tailwind: a wide-ranging \$369bn bill aimed towards lowering carbon emissions in the US, Advanced Drainage Systems, Tesla, On Semi and Sig Group all contributed over 1% each to monthly performance. We view this bill as a significant turning point for decarbonisation as it would provide the necessary policy support to realign the world's second largest emitter, US, with the targets set out in the Paris Agreement.
