1 Basis of preparation of interim financial report

This general purpose financial report for the reporting period ended 31 December 2022 ("the reporting period") have been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standard AASB 134 *Interim Financial Reporting*.

This interim financial report does not include all the notes of the type normally included in a set of annual financial statements. Accordingly, this report should be read in conjunction with the annual financial statements for the year ended 30 June 2022 and any public announcements made in respect of Man AHL Alpha (AUD) Fund during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The financial statements were authorised for issue by the directors on 10 March 2023. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

The accounting policies adopted are consistent with those of the previous financial year and the corresponding interim reporting period, except for the adoption of any new and amended standards as set out below.

The directors are satisfied that the Scheme has sufficient resources to continue in operation for the foreseeable future, a period of not less than 12 months from the date of this report. Accordingly, they continue to adopt the going concern basis in preparing the condensed financial statements.

Compliance with International Financial Reporting Standards

Compliance with AASB 134 ensures that the interim financial report of the Scheme, comprising the financial statements and notes thereto, complies with International Accounting Standard IAS 34 *Interim Financial Reporting*.

(a) New and Amended standards and interpretations adopted by the Scheme

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

(b) New standards and interpretations issued but not yet adopted by the Scheme

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2023 and have not been early adopted in preparing these condensed financial statements.

These amendments are not expected to have significant impact on the Scheme's financial statement.

(c) Other Legislative/government developments

Climate related and other emerging risk disclosure

Australian financial regulators have been focusing on the impacts and risks of climate change to the economy and on entities' future financial prospects. As such, the Task Force for Climate-related Financial Disclosures (TCFD) developed a set of framework and voluntary climate-related financial risk disclosures to help organisations evaluate and disclose, as part of their financial statement preparation and reporting processes, the climate-related risks and opportunities that are most pertinent to their business activities.

The Directors and the Investment Manager continue to monitor the impacts and risks of climate change to the economy and on the Scheme's future financial prospects.

Financial regulators have agreed that climate-related risks are a potential source of systemic financial risk that need to be addressed to ensure the future stability and resilience of the financial system. This is leading to changes in supervisory expectations of financial services entities and to regulatory change.

2 Net assets attributable to unitholders

As stipulated within the Scheme Constitution, each unit represents a right to an individual share in the Scheme and does not extend to a right in the underlying assets of the Scheme. There are two separate classes of units and each unit has the same rights attached to it as all other units of the share class. Each unit class has a different management fee and performance fee rate.

Units are redeemed on demand at the unitholders' option. However, holders of these instruments typically retain them for the medium to long term. It is subject for the review of the Investment Manager. As such, the amount expected to be settled within twelve months after the end of the financial year cannot be reliably determined.

Movements in number of units and net assets attributable to unitholders during the reporting period were as follows:

	For the reporting period ended			
	31 December 2022 No.'000	31 December 2021 No.'000	31 December 2022 \$'000	31 December 2021 \$'000

3 Financial assets at fair value through profit or loss

	As at	
	31 December 2022 \$'000	30 June 2022 \$'000
Financial assets at fair value through profit or loss		
Unlisted managed investment schemes	474,505	455,085
Total financial assets at fair value through profit or loss	474,505	455,085

An overview of the fair value measurements relating to financial assets at fair value through profit or loss is included in note 4 to the financial statements.

4 Fair value measurement

The Scheme is required to classify fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices); quoted prices for similar securities in active and/or inactive markets; market-corroborated inputs; inputs that are developed based on available market data and reflect assumptions that markets would use when pricing similar securities.
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes “observable” requires significant judgement by the Scheme. The Scheme considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

All fair value measurements disclosed are recurring fair value measurements.

The table below sets out the Scheme’s financial assets and liabilities measured at fair value according to the fair value hierarchy at the reporting date end.

As at 31 December 2022	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets				
Unlisted managed investment schemes	-	474,505	-	474,505
Total	-	474,505	-	474,505
As at 30 June 2022	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets				
Unlisted managed investment schemes	-	455,085	-	455,085
Total	-	455,085	-	455,085

The pricing for the majority of the Scheme’s investments is generally sourced from independent pricing sources, the relevant Investment Managers or reliable brokers’ quotes.

Investments whose values are based on quoted market prices in active markets, e.g. recognised stock exchanges, and therefore classified within level 1, include active listed equities and exchange traded derivatives.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. The observable inputs include prices and/or those derived from prices.

4 Fair value measurement (continued)

Level 2 investments could include those that are not traded in active markets and/or are subject to transfer restrictions (e.g. redemption restrictions). Valuations for these investments may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. Typically, prices of units in unlisted managed investment trusts that are either published on the Investment Manager's website and/or circulated among market participants as executable quotes are categorised as level 2.

Investments classified within level 3 have significant unobservable inputs, as they are infrequently traded. Level 3 instruments include certain unlisted unit trusts and corporate debt securities. As observable prices are not available for these securities, the Scheme has used valuation techniques to derive fair value.

Where a valuation model technique is used, the Scheme considers other liquidity, credit and market risk factors, and adjusts the model as deemed necessary. There have been no changes to the valuation techniques used for financial instruments classified as levels 2.

There was no transfer between levels during the reporting period ended 31 December 2022.

5 Events occurring after the reporting period

No significant events have occurred since the end of the reporting date which would impact on the financial position of the Scheme disclosed in the condensed statement of financial position as at 31 December 2022 or on the results and condensed cash flows of the Scheme for the reporting period ended on that date.

6 Contingent assets and liabilities and commitments

There are no outstanding contingent assets and liabilities or commitments as at 31 December 2022 and 30 June 2022.

Directors' declaration

In the opinion of the directors of the Responsible Entity:

- (a) the financial statements and notes set out on pages 5 to 13 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Australian Accounting Standards as it relates to AASB 134 *Interim Financial Reporting*, the *Corporations Act 2001* and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the Scheme's financial position as at 31 December 2022 and of its performance, as represented by the results of its operations and cash flows, for the reporting period ended on that date; and
- (b) there are reasonable grounds to believe that the Scheme will be able to pay its debts as and when they become due and payable.
- (c) the financial statements are in accordance with the Scheme's Constitution.

This declaration is made in accordance with a resolution of the directors.

Independent Auditor's Review Report to the Unitholders of Man AHL Alpha (AUD) Fund

Conclusion

We have reviewed the accompanying half-year financial report of Man AHL Alpha (AUD) Fund (the Scheme), which comprises the condensed statement of financial position as at 31 December 2022, the condensed statement of comprehensive income, condensed statement of changes in equity and condensed statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Scheme does not comply with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the Scheme's financial position as at 31 December 2022 and of its financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Scheme in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibilities for the half-year financial report

The directors of the Man Investments Australia Limited (the Responsible Entity) are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Scheme's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
