PORTFOLIO

HOW IS THIS FUND DIFFERENT TO OTHER GLOBAL EQUITY FUNDS?

The Fund targets meaningful absolute returns, not relative returns. The Fund's flexible mandate allows it to dynamically manage its market exposure and predominantly hedge currency exposure with the aim of protecting the Fund's assets by reducing volatility.

The team aims to identify sustainable growth trends that are under-appreciated and mispriced by the market; and aims to benefit from both the resulting winning (long) and losing (short) equity positions.

SUITABILITY

You may consider this Fund if your client is looking to invest in global growth equities for at least 5 years, accessing leading-edge companies, who we believe are at the forefront of structural change, but are concerned about short term market volatility or underlying growth company valuations.

This Fund is not suitable for those investors with a short investment time horizon (less than 5 years), seeking regular income or do not have a high tolerance for risk given exposure to equities.

UNDERSTANDING MANAGEMENT COSTS

The Fund has a management fee of 1.35% p.a.

The Fund may be entitled to a performance fee if the Fund performance exceeds the hurdle rate and the high water mark. The hurdle rate is the 10 year Australian Government Bond Rate plus 3.5% p.a. or 6% p.a., whichever is higher. In addition, the Fund includes a high watermark which must also be exceeded prior to a performance fee being payable.

More details on the Fund's management costs, including worked examples, are available in the Fund's Product Disclosure Statement.
