Munro Partners launches first SMA on Praemium

Munro Partners, a leading global equity investment manager, has launched its first Separately Managed Account (SMA) on the Praemium platform.

The Munro Global Growth Equity SMA will be managed by Munro's experienced portfolio management team, led by chief investment officer Nick Griffin, offering a concentrated long-only portfolio of Munro's best ideas. The Munro Global Growth Equity SMA will typically hold 25-35 listed global equities, applying Munro's unique stop loss review framework and its focus on structural growth winners.

Damien McIntyre, CEO of GSFM, which is Munro Partners' distribution partner in Australia, says the launch of the SMA gives investors another way to access Munro's long only ideas, providing access to some of the most innovative and fastest growing companies in the world today.

"We see a great opportunity to broaden reach and accessibility to our fund manager partners' strategies. The Munro Global Growth Equity SMA will allow brokers and financial advisers to invest directly in an actively managed global growth portfolio, for greater investment transparency, as well as cost and tax efficiencies.

"The teams at Praemium and GSFM collaborated closely to facilitate the transition and develop a compelling offering for the Australian market," Mr McIntyre said.

CIO of Munro Partners, Nick Griffin, says this milestone marks a significant expansion of Munro's offering, bringing its Global Growth Equity SMA strategy to a broader investor base through Praemium's managed account platform.

"As investor appetite for global equities continues to grow, we see SMAs as an ideal vehicle to deliver our high-conviction strategy in a scalable and transparent format.

"Praemium's platform enables us to provide seamless access while preserving the flexibility and control that today's advisers and investors demand. This partnership represents the natural evolution of our commitment to delivering exceptional global investment solutions through a truly scalable and transparent SMA offering," said Mr Griffin.

Praemium is currently the only platform offering this SMA capability for Munro Partners in Australia, reinforcing its position as a leader in managed account innovation.

"We're thrilled that Munro Partners has chosen Praemium to support the launch of its first SMA," said Damian Cilmi, head of investment managers & governance at Praemium. "Munro's reputation for global equity excellence and its disciplined, forward-looking approach makes it an ideal partner. This launch underscores the strength of our SMA capability and Praemium's commitment to delivering differentiated, high-quality investment options to advisers and their clients."

About GSFM

GSFM was established in 2007 as a subsidiary of the Grant Samuel Group. In 2016 Canadian wealth manager CI Financial Corp, which oversees more than C\$546.1 bn in funds under management (at 31 March 2025), acquired a majority stake in the business, previously held by Grant Samuel.

GSFM delivers comprehensive responsible entity services, operational support, commercialisation assistance, and expert distribution and marketing for funds managed by leading local and international investment managers, serving both Australian and New Zealand institutional investors as well as Australian retail investors. It has formed partnerships with nine specialist investment managers, who collectively manage more than A\$1.078 trillion.

- Epoch Investment Partners: Based in the financial heart of New York, Epoch Investment Partners specializes in global equity investing with a focus on free cash flow as the primary driver of returns.
- Payden & Rygel: This independent investment management firm, headquartered in Los Angeles, is renowned for its fixed-income expertise and a commitment to delivering client-focused investment strategies for over three decades.
- Munro Partners: An independent global equity manager from Melbourne, Munro Partners is recognized for its forward-thinking approach, actively investing in innovative and growth-oriented businesses worldwide.
- Man Group: Headquartered in London, this global alternative investment management firm is focused on pursuing outperformance for sophisticated clients via its Systematic, Discretionary and Solutions offerings. Their single and multi-manager investment strategies are underpinned by deep research and span public and private markets, across all major asset classes, with a significant focus on alternatives.
- Tanarra Credit Partners: Specializing in private credit instruments, Australian based Tanarra Credit Partners is dedicated to creating tailored credit solutions, offering unique investment opportunities in niche credit markets.
- Access Capital Partners: This European independent private asset manager is focused on private equity, private debt, and infrastructure, providing investors with access to diversified private markets.
- Eastspring Investments: As a global asset manager based in Singapore, Eastspring brings deep insights and a disciplined approach to investments across Asia, catering to a wide array of asset classes.
- Alantra: With a strong presence in Europe, Alantra specializes in small and mid-cap investments, leveraging local knowledge to drive growth in niche markets.
- Australian Entertainment Partners (AEP): Creators of the AEP Screen Fund, this investment vehicle is dedicated to supporting Australian film and television projects, backing local talent and boosting the creative industry.

GSFM currently has approx. \$11.38 billion funds under management (at 31 July 2025).
